Sherbrooke International Life Sciences Summit 2015

It is with great pleasure that I personally invite you to the second edition of Sherbrooke International Life Sciences Summit (SILS), which will take place in September 2015. The 2013 edition was such a success that we've decided to repeat the experience and to welcome you again in our beautiful City of Sherbrooke.

The theme for SILS' second edition is Aging, Assistive Technologies, and Drugs. Since the aging process affects each and every one of us, it is of course a great area for research and development on a variety of new products that can help the population age better.

SILS 2015 will offer conferences and panels from big companies, SMEs, health system stakeholders, and scientists. SILS will also welcome students through a poster session, and of course, the B2B matchmaking sessions will be back by popular demand!

Our presenting partners, MEDEC (Canada's Medical Technology Companies) and Rx&D (Pharmaceutical Research Companies of Canada), have honored us with their renewed participation in this adventure; please join us as well!

Josée Blanchard, Director – Business Development, Life Sciences
